

Nerdware is proud to be on the lookout for amazing talent to join our team!

### About Nerdware

Nerdware is a Digital Full Service Agency focused on Technology, Strategy, Design, Media and Content.

"We develop digital experiences that transform brands and grow businesses."

Our mission is to empower our clients with the ability to learn more about, understand better and interact more efficiently with your customers and stakeholders using our holistic, multi-channel emarketing platform which is equipped with a range of powerful and integrated tools.

### About the role

Our organization is looking for a tech-savvy individual to work as a Multimedia Designer for our Studio.

Your primary goal for this position will be designing and creating content for social media, YouTube, television advertisements, films, and other related media platforms. As a Multimedia Designer, you will be responsible for creating innovative content as per the client's requirements.

As an ideal candidate, you should have an excellent understanding of various digital imaging processing techniques. You should possess excellent communication skills with the ability to pay close attention to details.

### Execution of Day to Day Production Tasks:

In this position, you will meet with the stakeholders of the project to assess what they need. You will then create a design draft to submit for approval. After you create the final design, you will pass it off to the relevant department.

- Meeting the clients to understand their requirements.
- Coming up with innovative ideas and concepts as per the specifications.
- Preparing documentation to update the clients.
- Suggesting new technologies as per the client's requirements.
- Working in collaboration with the Studio team and Project Manager team.
- Creating visual effects, animations, and other related graphics.
- Performing detailed research before creating realistic models.
- Attending standup sessions to create various multimedia presentations and content.
- Developing storyboards for video games, advertisements, and others.
- Creating audio related to the video content.
- Performing editing and mixing of audio as per the requirements.
- Taking feedback from the team members and making changes accordingly.
- Staying updated with the latest trends in the advertising and video games industry.

### Skills, Competence, and Experience:

- Bachelor's degree in Graphic Design, or a related field.
- Proven work experience as a Multimedia Designer or a similar position in the Design industry.
- A portfolio of design content from past work experiences.
- A professional certificate in Illustrator, CAD, or equivalent.
- Demonstrate working knowledge of storyboards, animation, and visual designs.
- Good verbal and written communication skills.
- Excellent time management skills.
- Ability to meet deadlines and work under pressure.
- Illustrate the ability to create visually appealing content.
- Ability to take feedback and make necessary changes.
- Exceptional listening skills.
- Proficient in multimedia designing tools such as Photoshop, Flash, Dreamweaver, etc.
- Ability to prioritize the tasks efficiently.
- A keen eye for details for accuracy.
- Basic knowledge of HTML and CSS.
- A creative individual with the ability to think out of the box.
- Excellent organizational and interpersonal skills.
- Ability to work for long hours if needed.
- A detail-oriented individual with decision-making skills.

#### What Nerdware will bring you

- A smart, passionate, and fun team to collaborate with.
- A flexible working environment where we encourage forward-thinking and nurture ideas.
- We promote excellence at all levels in all roles and will work with you to ensure you are given every tool to succeed.

We look forward to meeting you!
