NERDW.COM

Nerdware is proud to be on the lookout for amazing talent to join our team!

About Nerdware

Nerdware is a Digital Full Service Agency focused on Technology, Strategy, Design, Media and Content.

"We develop digital experiences that transform brands and grow businesses."

Our mission is to empower our clients with the ability to learn more about, understand better and interact more efficiently with your customers and stakeholders using our holistic, multi-channel e-marketing platform which is equipped with a range of powerful and integrated tools.

About the role

We are seeking a highly skilled Full Stack Developer with a strong background in SharePoint development. The ideal candidate will have extensive experience in developing, deploying, and maintaining SharePoint solutions, alongside proficiency in a broad range of full stack technologies. You will be responsible for designing, developing, and maintaining web applications that meet the needs of our clients, ensuring seamless integration with SharePoint.

Responsibilities

- Design, develop, and maintain SharePoint sites, workflows, and custom web parts.
- Collaborate with cross-functional teams to define, design, and deliver new features and functionalities.
- Write clean, scalable, and efficient code across both front-end and back-end technologies.
- Troubleshoot and resolve issues related to SharePoint and other web applications.
- Ensure the performance, quality, and responsiveness of applications.
- Integrate SharePoint with other enterprise applications as required.
- Stay updated with the latest industry trends and technologies to ensure our solutions are cutting-edge.
- Participate in code reviews and provide constructive feedback to other team members.
- Contribute to the continuous improvement of the development process.

Required Skills

- Minimum 5 years Experience.
- **Mandatory:** Proven experience in SharePoint development, including SharePoint Online, SharePoint Server, and SharePoint Designer.
- Strong experience in front-end technologies: HTML, CSS, JavaScript, Angular, React.js.
- Proficiency in back-end development: Python, Node.js, C#, .NET, PHP, Symfony.
- Experience with database management systems: SQL Server, MySQL, PostgreSQL.
- Familiarity with version control systems such as Git.
- Experience with RESTful APIs and web services.
- Strong problem-solving skills and the ability to work independently or in a team environment.
- Excellent communication skills, both written and verbal.
- Ability to manage multiple projects simultaneously and meet deadlines.
